

## Differentiate and Enhance Your Propane Product Sales & Performance with Energy Additives™

Energy Additives™ Premium LPG products and BlueMoon® LPG Filtration Systems can help differentiate your product offerings from those of competitors by boosting gas performance, and reducing customer maintenance and down time expenses. Their superior performance attributes will also help to attract and maintain new customers seeking to leverage the many advantages these products provide across manufacturing, fabricating and fleet operations.

**PREMIUM LPG PRODUCTS:** Energy Additives™ offers three uniquely enhanced propane products formulated to deliver strategic advantages to customers in manufacturing, fabricating, cutting, welding and green fleet operations.

**CGX-4®:** Provides patented detergent and stabilizing technology to reduce heavy end buildup and improve combustion.

**VAPO-KLEEN™:** Removes deposits, reduces emissions and helps keep tanks and industrial equipment clean and maintenance free.

**HGX-3®:** Promotes rapid heat transfer, faster cutting and reduced slag formation.

**BLUEMOON® LPG FILTRATION SYSTEMS:** BlueMoon® LPG Filtration Systems provide multi-stage removal of water, heavy oils and particulates from propane gas to improve combustion and reduce maintenance/downtime expense.

- Removes up to 95% of all impurities.
- Removes particulates down to 5 microns.
- Eliminates the need for methanol to treat water.

**TURNKEY MARKETING SUPPORT:** Energy Additives™ premium products are backed by a turnkey marketing program to help increase customer preference, awareness and loyalty for their many benefits and advantages over standard propane products.

- Auto gas pump imaging
- Cylinder tank labels
- Customer brochures
- Location signage

Contact ValvTect Petroleum Products today to learn more about how we can help increase your propane sales, profits and customer development efforts.

## Turnkey Marketing Programs To Expand Sales, Develop Customer Loyalty and Increase Profit Margins

Energy Additives™ Premium LPG products and BlueMoon® LPG Filtration Systems are backed by turnkey marketing and merchandising programs to help you differentiate your propane and propane business from the competition. Signs, truck & tank decals, canopies and pump dressings are available to promote branding and are supported by product marketing and educational materials to accelerate sales and build customer loyalty.

**SALES MATERIALS & CUSTOMER BROCHURES:** Use Energy Additives™ and BlueMoon® LPG Filtration Systems sell sheets, product brochures and technical materials to sell and educate your customers about the unique advantages and cost savings that “enhanced” propane products offer over the competition.

- Customer Sell Sheets
- Product Brochures
- SDS's
- Feature/Benefit Sheets
- Personalized Materials

**LOCATION BRANDING, MERCHANDISING & SIGNAGE:** Use Energy Additives™ and BlueMoon® LPG Filtration Systems location and equipment signage to identify and leverage the branding power of “enhanced” propane for your business.

- Tank/Cylinder Decals
- Truck Decals
- Canopy Imaging
- Location Signs
- Pump Dressing (toppers, skirts, decals, etc.)

(Cylinder Labels)
